

Sana

JUICER® BY *Omega*

The Sana Juicer by Omega is single auger juicer equipped with a powerful motor to thoroughly chew up plant fibers to fully extract vitamins, enzymes, and minerals from fruits, vegetables and wheatgrass. The unit's dual-stage juicing system ensures maximum efficiency, while it's low rotation speed of 70 RPMs means no foaming like with centrifugal juicers, no clogging, and no heat build-up. Other highlights include a high juice yield with very dry pulp, bigger feeding tube, new timeless design, four stabilizing feet, and quiet operation.

vegetable juice
